- See Books & Online Resources List for the reading materials -

The readings are not mandatory but it is encouraged.

Lecture slides and Mini-Assignments will be available the day before class.

Modules will be available two weeks before the deadline.

The “Reading” column in the table below contains a number on which it refers to a numbered item in the Books & Online Resources List. For example “[PSDR]” refers to the first item in the list, which is our main text book titled “Probability, Statistics, and Data: A fresh approach using R”.
